EDUCATION

D.Y. Patil College of Engineering Akurdi

BE - Artificial Intelligence and Data Science - CGPA - 8.43

2022 – Present

Pune, Maharashtra

Jawahar Navodaya Vidyalaya Wardha

SSC- 93 Percentage

Wardha, Maharashtra

SKILLS

Programming Language: C++, C,Python,SQL

Library :Pandas,Numpy,Matplotlib,Seaborn

Web Development :HTML,CSS,Bootstrap ,React.JS,Flask

Tools :Power BI

CS Fundamentals :Data Structures and Algorithms, Database Management Systems,
Object-Oriented Programming, Computer Networks

Databases :MySQL,MongoDB

Technology/Framework :Github

EXPERIENCE

Genrative- AI Internship

2024

Participated in Cohort-11 eduskill internship program for Generative-AI Domain

PROJECTS

Fake-News-Detector 🔗 | Flask,React.Js

- Developed a Fake News Detection web application using React for the frontend and Flask for the backend.
- Implemented a Logistic Regression model with TF-IDF vectorization to classify news articles as real or fake.
- Integrated the ML model with a user-friendly interface for real-time prediction and interaction through the web app.

Real Time Performance Dashboard 🔗 | Python,Flask

- Developed an interactive dashboard using Flask to monitor automation performance metrics.
- Integrated a linear regression model to predict productivity gains based on key operational factors.
- Created dynamic, filterable visualizations with seaborn for real-time data insights and analysis.

Sales Analysis Dashboard 🔗 | Power BI

- Designed an interactive Power BI dashboard to analyze global sales data (2017–2020) with KPIs for Sales, Cost, and Profit.
- Implemented filters, maps, and charts (pie, bar, line) to visualize trends by region, product sub-category, and customer.
- Used Power Query for data modeling and transformation to support actionable business insights.

CERTIFICATIONS

- Web Development
- Tata Group's Data Visualization: Empowering Business with Effective Insights
- Python libraries for data analysis
